Earth to Ocean

“Everything that we design is custom, handmade and one of a kind. All of our jewelry is made with sea glass that we find ourselves or from our customer’s personal collections. Most of our sea glass is from New Jersey’s beaches or wherever we vacation. Our favorite spots are on the beautiful beaches of Rincon, Puerto Rico, where we live in the winter. All of our treasures are kept exactly how we find them on the beach. There is no tumbling or grinding, as we pride ourselves in keeping our sea glass genuine and one of a kind.”

I use leather cord, semi precious stones, and Czech glass beads to make single double and triple wrap bracelets & hand make Mala necklaces and other wrap pieces I designed as well. I, also, sell an item I created called a tile striker - 4 boxes of strike anywhere matches sandwiched between 2 hand decorated tiles. I designed it as a safe place to rest a candle, for use with incense, a fireplace, or in a bathroom. Lastly, I make small batch, hand poured, soy candles. I use only essential oil blends, cotton wicks and US sourced soy to create a cleaner burning healthy fragranced candle line.
